MINING COMPONENTS

GROUND ENGAGING TOOLS (GET)

Teeth, adapters and bucket components for shovels, loaders and excavators, with PTA overlay options for extended wear.

LONGER LIFE AT THE CUTTING EDGE

GET takes the first hit from every pass. We supply teeth, adapters and bucket wear components in alloys matched to your digging conditions.

Ask us about PTA (plasma transferred arc) overlays on bucket components: a dense, carbide-rich weld overlay that extends wear life on high-wear surfaces. Combined with our wear-life monitoring, we can help you plan changeouts before failures happen.

KEY FEATURES

- Teeth and adapters
- Bucket wear components
- Wear-life monitoring

SPECIFICATIONS

COMPONENTS	Teeth, adapters, bucket wear parts
OVERLAY	PTA hardfacing options
SELECTION	Matched to digging conditions

01
ENGINEER
Application review, wear analysis, alloy and heat-treatment specification.

02
PRODUCE
Made to our specifications by qualified partners or in our Calgary shop.

03
VERIFY
PMI, spectrographic, hardness and dimensional checks in Calgary.

04
SUPPORT
Machining, fabrication, wear-life monitoring and changeout planning.

VERIFIED IN CALGARY

PMI · Spectrographic analysis · Hardness testing · UT / MT / PT · Dimensional / CMM · Full traceability

CERTIFICATIONS

ISO 9001 · CSA W47.1 · COR · APEGA Permit

REQUEST A QUOTE

Send a drawing, part number or worn sample, and we will quote price and lead time.
