WEAR PLATE & LINERS

RUBBER & CERAMIC CHUTE LINERS

Composite rubber and ceramic liners for truck beds, chutes, feed bins and hoppers in severe impact and high-abrasion service.

IS YOUR LINER WEARING THIN?

Avoid long-term damage and costly downtime by retrofitting rubber or composite ceramic liners to rock trucks, chutes and conveyor systems.

These liners suit areas of severe impact and high abrasion, typically with high-silica, high-compressive-strength material, in discharge chutes, feed bins, truck beds and hoppers of any size.

KEY FEATURES

- Truck beds and haul bodies
- Chutes, feed bins and hoppers
- Retrofit to existing equipment

SPECIFICATIONS

MATERIALS
Rubber; ceramic/rubber composite

SERVICE
Severe impact and high abrasion

APPLICATIONS
Truck beds, chutes, feed bins, hoppers

01
ENGINEER
Application review, wear analysis, alloy and heat-treatment specification.

02
PRODUCE
Made to our specifications by qualified partners or in our Calgary shop.

03
VERIFY
PMI, spectrographic, hardness and dimensional checks in Calgary.

04
SUPPORT
Machining, fabrication, wear-life monitoring and changeout planning.

VERIFIED IN CALGARY

PMI | Spectrographic analysis | Hardness testing | UT / MT / PT | Dimensional / CMM | Full traceability

CERTIFICATIONS

ISO 9001 | CSA W47.1 | COR | APEGA Permit
